Regenerative Farm Tour

A hands-on farm experience exploring regenerative farming and our connection to food, nature, and the planet.

58 *is the average age of farmers worldwide. Engaging and encouraging young farmers is a key challenge to ensure our food security.*

HIGHLIGHTS

Visit our Permaculture Farm and discover food grown in harmony with the Earth.

Explore climate-positive rice fields, community gardens, and our seedling nursery.

Harvest, cook, and share lunch with our local chef amid peaceful rice paddies.

An inspiring glimpse into self-sufficiency, healthy living, and regenerative solutions.
